ONE-PAGE SUMMARY REPORT

E-Learning Platform SQL Analytical Performance & Insights

Analytical Summary

1. ANALYTICAL OVERVIEW

This report presents key metrics derived from SQL database analysis of the e-learning platform across `learners`, `courses`, and `purchases` tables. The database captures interactions among 10 registered learners, 8 course offerings, and 12 sales transactions. Data joins and aggregations were utilized to evaluate overall sales performance, learner engagement, and inventory distribution.

2. PERFORMANCE BY COURSE CATEGORY

Course Category	Unique Buyers	Units Sold	Total Revenue	Revenue Share
Data Science	3	5	₹35,000.00	60.9%
Programming	2	4	₹12,000.00	20.9%
Marketing	2	3	₹6,000.00	10.4%
Design	1	1	₹4,500.00	7.8%

3. KEY ANALYTICAL INSIGHTS

- **Highest Revenue Driver:** *Data Science* generated ₹35,000.00, led by *SQL & Data Analytics* (4 units sold).
- **Top Learner Spending:** Jothi Bala (India) leads platform spending with ₹20,000.00, purchasing across 3 distinct categories.
- **Cross-Category Buyers:** Jothi Bala (3 categories) and Bala Niranjan (2 categories) demonstrate high multi-domain engagement.

4. INVENTORY & SALES GAP ANALYSIS

- **Top Selling Volume:** 1) *SQL & Data Analytics* (4 sold), 2) *Python for Beginners* (3 sold), 3) *Digital Marketing* (3 sold).
- **Unpurchased Inventory:** Identified using `RIGHT JOIN` with `WHERE purchase_id IS NULL`:
  - **Course 107:** Business Communication (Category: Business | Price: ₹1,500.00)
  - **Course 108:** Machine Learning Basics (Category: Data Science | Price: ₹5,000.00)

5. STRATEGIC RECOMMENDATIONS

- **Focus Marketing on Top-Performing Course Categories:** Allocate marketing budgets toward Data Science and Programming domains, which account for over 81.8% of total revenue.
- **Promote Unpurchased Courses via Bundling:** Package zero-sales offerings (Course 107 & Course 108) as bundled add-ons alongside flagship courses like *SQL & Data Analytics*.
- **Engage High-Value Multi-Category Buyers:** Create targeted cross-selling strategies and loyalty incentives for learners who show multi-category purchasing behavior.
